I enjoyed your teaching style a lot. You are always available to help, and your office hours are right after class, making it easy to get extra help.
I feel like the review sessions were more helpful than lecture. At times it felt like filler but overall I learned a lot.
I loved how validating Professor Devine has been during class. For example, she would praise us when we asked questions to encourage us to keep asking those questions. I liked that she repeated the questions asked so that the rest of the class could hear too. I feel like I have a really good grasp on the material covered in this course because Miss Divine explained things very well and gave helpful examples when teaching new concepts.
Loved the class
Ms. Devine is a wonderful and engaging instructor. I specially like the exam reviews.
Ms. Devine is absolutely wonderful, I learn a lot from her, and she is a teacher that actually cares.
Nice lady. Understanding. Cares about students and material that is being taught.
Professor Devine has been great to us as a class , she makes sure we know she cares and it's very appreciated!
Professor Devine was amazing! I was able to really digest and understand the material due to her teaching methods. I love the examples and reinforcement provided when we asked questions for clarification.
She is a wonderful professor, I learned a lot in this class thanks to Ms. Devine. I hope that there are more opportunities to take courses with her if she wishes to teach.
The structure of the course and the delivery of the content through all of the quizzes and fluency modules were great. Great ideas for ensuring our understanding of the course as a whole. Thank you.
This class reinvigorated my love for behavioral health and understanding. Miss Devine shows so much passion for the subject in her teaching. I thoroughly enjoyed the set-up of our lessons with the pre-lesson quiz, the whiteboard questions, and the engaging relevant videos. The only note I have is sometimes things can be over explained or drawn out. Other than that this class have been very enjoyable!!
Very good instructor that provides many examples and is concerned for student's well-being.
Very kind and respectful teacher. Did her best to make the class engaging and interesting. 2 hour summer classes are hard to sit through, but as far as it goes Professor Devine was a great instructor.

Course load felt overwhelming at times with exams being so back to back. But, in the long run, the whole thing was very easy to complete. As long as chapters were read and etc, material was not difficult and course work itself was not difficult. Very very hard to actually fail this class. Only complaint is that during lectures, there were a lot of times where things were over explained and a lot of thing we talked about in detail that at least I personally felt were fairly self-explanatory or were already thoroughly explained on the slides.
Great course .
Guided notes was the best method to teach the materials in class! There is a lot of information so it is helpful to have guided notes to keep track of the lesson!
I find the guided notes and the fluency quizzes very helpful to assist in my learning.
I know the summer courses are set up differently but I would recommend doing one quiz a week with a combination of both fluency modules going forward.
I think the way the class is set up in that we are to take quizzes at the beginning of every class based on what we read the night before is very effective for learning new information. I believe a lot of the courses in the ABA minor are set up this way, and I think it's great (although I admit at times it can be a little inconvenient). Overall loved this course, and would take it again if I had to.
The assignments can get a bit hectic sometimes
The study guides helped a lot
This was such an exciting class to take, I loved learned more about the inner workings of the mind!!
Useful introductory course. Beneficial for anyone interested in the subject.
